EDUCATION

California State Polytechnic University, Pomona

August 2025 - Expected Graduation: May 2029

Bachelor of Science: Computer Engineering

GPA 3.81

Minors: Data Science, Statistics

Relevant Coursework: Calculus, Python, Circuit Analysis

WORK EXPERIENCES

Student Assistant - Events & Conferences

August 2025 - Present

College of Engineering - California State Polytechnic University, Pomona

- Managed 3–5 engineering events per month for the Dean’s Leadership Board, Student Advisory Board, and Engineering Student Council, including career fairs, club expos, and job fairs for students, faculty, staff, and industry partners.
- Oversaw folder-based databases, performed data cleaning and validation for event records over 100+ attendance lists in Excel.
- Established Eventbrite registration systems and developed promotional materials and event assets in Canva to optimize event marketing operations, expand outreach, and improve attendee engagement.
- Coordinated with outside vendors, companies, faculty, and staff via email and phone to organize services, schedule appointments, and ensure smooth event operations.

Data Analyst Intern

June 2025 - August 2025

Arakelian Enterprises Inc. - Athens Services, Pacoima

- Used SSMS to join and query two databases containing 30,000+ customer records for Ventura and Orange County accounts.
- Supported Salesforce application development, including the Field Service mobile app, to streamline business workflows.
- Updated low-code applications in AppSheet to automate internal processes and improve operational efficiency.
- Gained familiarity with Tableau by assisting in creating dashboards that translated queried data into actionable insights.
- Participated in developing an AI-powered database with a custom UI, integrating user-friendly design with data management while gaining exposure to UI/UX and full-stack development through Flynet Studios.

PROJECTS

Personal Portfolio Website - GitHub

VS Code Personal Project

- Working on programming a personal portfolio to create a visualized website to showcase information about me, using VS Code on GitHub with HTML/CSS/JavaScript.

LEADERSHIP EXPERIENCES

Executive Board Treasurer

August 2025 - Present

Engineers Without Borders - CPP Chapter

- In charge of club finances across General, Donation, and ASI accounts (totalled \$5000+), maintaining accurate records, making correct transactions and processing payments on time.
- Handled disbursement approvals and annual budget submissions to support club operations and event funding.
- Collaborated with the executive board to plan budgets, discuss events, allocate funds, and meet all university finance deadlines.
- Participated in events, volunteered in community services and projects to support the EWB motto - "Building a better world".

ADDITIONAL INFORMATION

Hard Skills: Microsoft Office (Word, Excel, Powerpoint, Outlook), programming languages (Python, SQL, Tableau, Scratch, GitHub)

Soft Skills: Discipline, languages (Armenian, English, Russian), communication, time management, work ethic

Memberships: College of Engineering Dean’s Student Advisory Board (2025-present), Engineers Without Borders - CPP Chapter (2025-present), U16 Armenia National Basketball Team (2021-2023)

Awards/Honors: National Honor Society Member (2025), Alpha Lambda Delta Honor Society Member (2026)
